Information in accordance with Regulation (EU) 2016/679 (General Data Protection Regulation)

In accordance with the provisions outlined in Regulation (EU) 2016/679 (General Data Protection Regulation), you are hereby informed that the personal data you have provided, or that has been acquired through Centro Fiera S.p.A. activities, shall be processed in respect of, and in compliance with, the explicit provisions in the afore-mentioned Code. The processing of this data, which may be performed by electronic, manual or printed means (e.g. publication of photographs in brochures, etc.), shall be for the following purposes:

- 1. The fulfilment of contractual and legal obligations connected to the interested party's participation as exhibitor or partner at FAZI organized by Centro Fiera S.p.A..
2. The organizational management of trade show FAZI by Centro Fiera S.p.A., for example, production of personal identity badges for security purposes, statistical processing of aggregate data, planning, communication to third parties that collaborate in the creation and management of events (e.g. other trade show organizers, suppliers, consultants, etc.), insertion of personal data in the Official Catalogue and Show Map, which shall be distributed nationally and internationally. In this case, some data may be also be collected through pre-registration procedures (on-line or printed) or by persons authorized by us before entering the trade show area.
3. Profiling, customer loyalty development and the sending of commercial and promotional communications regarding Centro Fiera S.p.A. activities by e-mail, text message, mms, fax, telephone calls and direct sales as well as for other marketing purposes (e.g. market analysis and surveys).
4. Profiling, the sending of commercial, promotional and advertising communications concerning the products and services of Centro Fiera S.p.A. third party partners (organizers, exhibitors, trade show operators or persons operating in other sectors) interested in proposing advantageous commercial offers concerning Centro Fiera S.p.A. shows and exhibitions, by e-mail, text message, mms, fax or telephone calls. For these purposes, the data may also be communicated or transferred to these subjects so that they can use them directly in their commercial communications. Data processing refers to data collection, registration, organization, conservation, processing, modification, selection, extraction, comparison and re-classification into homogeneous economic categories, usage, interconnection, blockage, communication and divulgation. Processing duration shall be proportionate to the purposes pursued on a case by case basis. Providing Centro Fiera S.p.A. with data is always optional. Nevertheless, if - as often occurs in relation to those who intend to request a participation proposal and/or to participate as exhibitor or partner at the trade shows - the data concerned in this data-provision option need to be processed by Centro Fiera S.p.A. in order to correctly fulfil a regulatory or contractual obligation, as well as to comply to the interested party's requests (purposes foreseen in point 1), said data must be provided. In fact, any non-provision of said data would make it impossible for Centro Fiera S.p.A. to supply the contractual services that you have requested and/or to fulfil the legal obligations deriving from installing relations with you. Therefore, it would be practically impossible to send you a participation proposal and allow you to take part in the trade show, enter the Exhibition Area and use our services, etc. For the purposes outlined in point 1, however, consent to data processing is never necessary (in that, art. 24 of Leg. Dec. 196/2003, exonerates Centro Fiera S.p.A. from the obligation to request it). We would hereby point out that "providing data" refers to material made available by the interested parties in favour of Centro Fiera S.p.A., therefore it is not the same as "consent" to processing said data for the purposes described in points 2, 3 and 4. The interested party that provides data (having read this communication), is presumed to have given tacit consent only to the fact that these data are to be processed for the purposes outlined in point 1. If, however, the data are processed for the FAZLons outlined in point 2, consent is optional, although any lack of consent shall make it impossible for Centro Fiera S.p.A. to carry out the relative processing and, in some cases, to execute the services required by the interested party. Therefore, should the interested party intend to receive a participation proposal and/ or to participate in the trade show, we recommend giving explicit consent to data processing for the purposes outlined in point 2 and not just to providing data. If, however, data processing is for the purposes outlined in points 3 and 4, consent is optional and any non-provision of said data shall not lead to the non-execution of the services required by the interested party. However, it shall make it impossible for Centro Fiera S.p.A. to perform the relative processing (e.g. to use an e-mail address or mobile phone number for sending promotional messages). Data collected for the purposes outlined in point 1 may be transmitted to: companies which, on behalf of Centro Fiera S.p.A., provide IT system and database management and maintenance services, companies sub-contracted through tenders/ assignments on behalf of Centro Fiera S.p.A., which perform indispensable services for participation (e.g. the installation and management of fittings and equipment, logistics, security, surveillance, first aid services, hostesses, etc.). Data processing by these subjects shall be for the same purposes and in the same modalities as those described above. Furthermore, Centro Fiera S.p.A. also hereby gives notification that, for the duration of the trade shows or events that it organizes, authorized photographers and/ or video-makers may film and/or take photographs for documentation and promotion purposes to be used on the show websites and their corresponding social network profiles

(e.g. Twitter, Facebook, Whatsapp, Youtube, Vimeo, etc). The photographs and videos published shall regard trade show activities, which are to be considered as shows or events of a public nature and, as such, shall not contain any information for which the explicit consent of the subject in the film or photograph is required. If the person concerned does not wish to be photographed or filmed, he/she is kindly asked to inform the persons in charge at the time of photograph or film shooting. The persons photographed or filmed do, however, have the right to ask for the removal or cancellation of databases from the company website and/or the above-mentioned platforms by sending an e-mail to: info@centrofiera.it. In this case, Centro Fiera S.p.A. shall promptly remove the material. Data collected for the purposes outlined in points 2 and 3, which may be acquired on-site by operators authorized by Centro Fiera S.p.A., may be communicated to photographers and/or video-makers appointed to create the materials, companies that work in the post-production of audio and video materials, journalists and journalistic newspapers and magazines, companies appointed to carry out marketing analysis, advertising, communication and/or public relations agencies, companies commissioned to print advertising or promotional material, website production companies, web-marketing companies and other subjects implemented in the creation and/or maintenance of promotional materials, information technology system maintenance companies engaged for data processing, as well as any third party commercial partners with which Centro Fiera S.p.A. share the above promotional initiatives or with whom it organizes shows and events, as well as, through catalogues, exhibitors and/or visitors at trade shows organised by Centro Fiera S.p.A., also in collaboration with third party partners. Data communication shall follow the principles of proportionality and therefore be limited, on a case by case basis, to the necessary. The above subjects shall process the materials and data for the same purposes as described above. You are also hereby informed that article 7 of the afore-mentioned Code recognises a number of rights in favour of the interested party, including: to obtain information about the existence of the data that regards him/her and their communication in an intelligible form; to obtain their cancellation, their anonymous transformation or blockage, their updating, rectification or, if interested, their integration, as well as the certification that these operations have been notified to the entities to whom the data were communicated; to object, on legitimate grounds, to the processing of said data, even if relevant to the purpose of the collection; to object to processing for marketing purposes (profiling, commercial communications, market researches and analysis). These rights may be exercised by writing an e-mail to: info@centrofiera.it. The Data Controllers is: Centro Fiera S.p.A., with registered offices in Montichiari, via Brescia, 129 and enrolled on the Brescia Company Register at no. 333445. A list of those in charge of data processing can be requested from the Data Controllers.
